

Javier Quiroga

UX/UI Designer & Frontend Developer

07413 174457 | contact@javierquiroga.com | www.javierquiroga.com | linkedin.com/in/javier-quiroga/

London-based hybrid designer-developer skilled in UX/UI and frontend implementation. Turning user insights into accessible, component-based interfaces and production-ready code. Collaborative, Agile-ready, and equally comfortable in design sprints or code reviews.

Work Experience

UX/UI Designer

Freelance | London, England

12/2022 - Present

- Designed Figma wireframes, prototypes, and reusable components for startup web & mobile apps; handed off to developers with full specs.
- Ran user research & usability testing; redesigned flows for a niche dating app, improving task completion.
- Collaborated with engineers to deliver WCAG-compliant UI, iterating on stakeholder and dev feedback.
- Built scalable design systems in Figma, enforcing visual + interaction consistency across projects.

Bakery Manager

Ole & Steen | London, England

03/2020 - 06/2022

- Elevated KPI performance; HSK became the best-performing store in Q1 2022.
- Achieved record-breaking sales and managed a team of 20+, promoting 3 into management.
- Developed and implemented a training tool, re-training 80+ baristas across 20 stores.

Education

Full Stack JavaScript Web Development

The Odin Project | London, England

Ongoing self-directed learning

- Gained hands-on experience with React, JavaScript/TypeScript, HTML, CSS, and Git/GitHub workflows.
- Built responsive front-end components from design hand-off through to deployment.
- Strengthened problem-solving, APIs, authentication, and debugging skills.
- Mastered object-oriented programming and algorithmic challenges in real-world scenarios.

UX/UI Design Bootcamp (Full-time)

Ironhack | London, England

08/2022 - 10/2022

- Mastered Figma for wireframing, prototyping, component libraries, and design systems.
- Applied Design Thinking & Agile to ship end-to-end features in team sprints.
- Conducted UX research & usability testing to optimise data-driven user flows.
- Created accessible, interaction-rich UI for complex web applications.

Audiovisual Communication

Universidad Villanueva | Madrid, Spain

09/2011 - 06/2015

- Focused on visual storytelling and creative problem-solving.
- Post-production, video editing, film distribution, film marketing.
