

Javier Quiroga

UX/UI Designer & Frontend Developer

07413 174457 | contact@javierquiroga.com | www.javierquiroga.com | github.com/cd-javier

UX/UI Designer and Frontend Developer (React, TypeScript). Designs in Figma, builds in React, no handoff needed. Does the research, makes the wireframes, writes the code. Actively building with The Odin Project to push further into full-stack development. Fluent in Spanish, English, and French.

Work Experience

UX/UI Designer & Developer

Freelance | London, England

12/2022 - Present

Matthew CT Fuller — Personal Website (2026)

- Designed and built end-to-end in React 19, TypeScript, and Sanity CMS; client manages all content independently. Live at matthewctfuller.com.

LESGO — LGBTQIA+ Dating App (2024)

- Rebuilt visual identity: colour system, typography, iconography, and a consistent component library with full dev handoff specs.
- Redesigned navigation validated through user testing; restructured into four clear sections for UK market launch.

WAW Lifestyle — Wellness App (2023)

- Restructured information architecture from scratch using heuristic evaluation and user testing; sold findings to a resistant client with data.

General Manager (promoted from Barista to General Manager)

Ole & Steen | London, England

03/2020 - 06/2022

- Grew High Street Kensington into the best-performing UK store in Q1 2022, breaking sales records in first month as GM.
- Managed 20+ staff, promoted 3 into management.
- Designed and successfully implemented a train-the-trainer programme covering 80+ baristas across 20 stores.

Education

Full Stack JavaScript Web Development

The Odin Project | London, England

12/2024 - Present

- Self-directed full-stack curriculum covering React, TypeScript, JavaScript, HTML, CSS, and Git.
- Applied directly to live client work: built matthewctfuller.com end-to-end in React 19 and TypeScript.

UX/UI Design Bootcamp (Full-time)

Ironhack | London, England

08/2022 - 10/2022

- 3-month full-time bootcamp covering the full UX process: research, information architecture, wireframing, prototyping, and usability testing.
- Shipped product features end-to-end in team sprints using Design Thinking and Agile.

Audiovisual Communication

Universidad Complutense | Madrid, Spain

09/2011 - 06/2015
